

CURRICULUM VITAE

Dr Yvonne Khoo Siew Khoon, Malaysia

Dr Yvonne Khoo, a registered pharmacist graduated from the University of Science, Penang. She started her career as a regulatory pharmacist at the National Pharmaceutical Regulatory Division (NPRA) in 2003. Throughout the years, she has accumulated vast experience in clinical trial regulation, innovative pharmaceutical and biological product registration, and quality control test method development and validation. She currently leads a team of evaluators for new drug (non-biological) product registration. Dr Yvonne has authored articles stemming from her keen interest in biopharmaceutical product development, regulation, commercialisation and utilisation. She believes good policies deserve equally effective communication in order to actively engage both industry and public alike on the Ministry of Health's vision of working together towards better health outcomes. In her spare time, she enjoys learning foreign languages.
