

CURRICULUM VITAE

Ms Anna Parker, United Kingdom, PAXMAN

Following graduation from Huddersfield University with an MSc in International Business Management, Anna worked in variety of international business development roles in the medical sector (Healthcare) facilitating companies' global growth prior to joining PAXMAN in 2017. Since then Anna's focus is to continue the mobilisation of PAXMAN's global network of distributors to improve the accessibility of scalp cooling, ensuring that every applicable cancer patient has the opportunity to retain their hair through chemotherapy. Anna has been instrumental in bringing scalp cooling to markets where historically there had been little awareness of the treatment e.g Argentina, Mexico, whilst continuing to nurture existing established markets such as the Netherlands, Brazil, Germany and Singapore. Anna is a key part of PAXMAN's interdisciplinary team striving to improve scalp cooling efficacy and enabling patients' access to scalp cooling, irrespective of where they are in the world.
