

CURRICULUM VITAE

Dr Yeoh Kheng Wei, Singapore

Dr Yeoh trained in London and Oxford in UK and has a background in molecular biology, internal medicine, chemotherapy, radiotherapy and public health. His interests lie in the holistic inter-disciplinary approach towards the management and prevention of cancers. In this context, he is on the Professional Development and International Committees of the Faculty of Clinical Oncology at the RCR, UK and is a visiting lecturer at the University of Oxford, UK. He also works as a senior consultant oncologist in SE Asia. He is on the editorial board of Clinical Oncology. Clinically, he has an interest in treating malignancies in a multi-modality manner and investigating the molecular aspects of cancer treatment.
